FRANCE TRYING TO BLUFF CASTRO

Naval Demonstration Against Venezuela Threatened.

FINAL PLANS WITHHELD

Paris, Oct. 17 .- The departure of the armored cruiser De Saix from Cherbourg yesterday for the island of Martinique French West Indies, inaugurated the preparations for dealing with the Venezuelan question with a strong hand 'f President Castro persists in his present course. The De Saix will stop at Brest, where she will be joined by the cruisers Lavoisier and Chasseloup-Laubat. The three warships will proceed together to the French West Indies, joining the cruisers Jurien de la Graviere and Troude now at Martinique. This will give the division of the ships under Admiral Beyonde Ia Peyrer.

Precautionary Measures.

The rendezvous will be Fort de France, Martinique. Phese measures are probably precautionary, as the officials here are still hopeful that the president will make suitable amends. Therefore, no orders have been issued concerning the nature of the ultimate naval action against Venezuela, as these await the assemblage of the warships taken as a menace. On the contrary, the French authorities are deferring the announcement of their final plans until President Castro's protracted inaction shows he is not willing to make any amends. It is pointed out that President Castro's withdrawal of his offensive action towards M. Taigny, the French charge d'affaires, and the presentation of a suitable explanation would

Time to Make Amends.

The duration of the voyage to Fort de France will be about two weeks. Therefore, time remains for President Castro to make explanations. It is understood that the demonstration, if finally resorted to, will take the form of a blockade of Venezuelan ports. Uncle Sam Approves. The complete emptiness of the stomach during sleep adds greatly to the amount of emaciation, sleeplessness and general weakness so often met with. There is a perpetual change of tissues in the body, sleepling or waking, and the supply of nourishment ought to be somewhat continuous and food taken just before retiring, adds more tissue than is destroyed, and increased weight and vigor is the result. Dr. W. T. Catheli says: "All animals except man eat before sleep, and there is no reason in Nature why man should form the exception to the rule."

If people who are thin, nervous and sleepless would take a light lunch of bread and milk or oatmeal and cream, and at the same time take a safe, harmless stomach remedy like Stuart's Dyspepsia Tablets in order to aid the stomach in digesting it, the result will be a surprising increase in weight, strength and general vigor. The orly drawback has been that thin, nervous, dyspeptic people cannot digest and assimilate wholesome food at night or any other time. For such it is absolutely necessary to use Stuart's Dyspepsia Tablets, because they will digest the food, no matter how weak the stomach may be, nourishing the body and resting the stomach at the

BOYS ATTEMPT ARSON.

Is Discovered by Principal.

What is supposed to have been an attempt to destroy the Pingree school by fire was frustrated yesterday by the prompt action of the principal of the school. School was in session at the time. The Pingree school is situated at the corner of Thirtieth street and Pingree avenue. It was shortly after the school convened yesterday morning that the principal detected smoke in the building. Thinking it was the fault of the heating apparatus a man was sent to repair the Thinking it was the fault of the heating apparatus, a man was sent to repair the same. A short time afterward the smoke became so dense that it was necessary to dismiss the school. When this had been done an investigation was started which disclosed that, beneath the main entrance to the building among a number of unused desks that had been stored there, a quantity of paper and kindling wood was found, already in a healthy blaze, that would within a short time have been communicated to the floors above. The wood and paper that was found had evidently municated to the floors above. The wood and paper that was found had evidently been carried there by those responsible for the fire. The fire was extinguished without much trouble and a further investigation was held. From the evidence gathered the fire is supposed to be the work of boys who did the deed for spite. The matter is now being investigated by the police.

Philadelphia, Oct. 17.—The special committee of seven of select councils appointed last August to investigate the affairs of the various departments of the city as conducted by Mayor Weaver, began the taking of testimony today. The meeting was not without its sensations, chief of which was the request to Mayor Weaver and three of his directors to leave the room, and the statement of J. B. Taylor, superintendent of police, that David J. Smythe former director of public safety, had told him not to molest election repeat-ers. Mr. Taylor's statement was made despite the vigorous efforts of Milton C. Work, the chairman of the committee, to confine him to the questions pro bounded by the committee's attorney. ST. LOUIS, U. S. A.

The Chicago Foundlings' Home has for many years The Chicago Foundings from the fleating used St. Charles Cream exclusively in the fleating of very young infants, and with the very best results. Dr. H. A. Howe, Head Physician, has compiled a table showing how and when to feed the average infant. This we will send free to any mother or to any physician wishing it.

It takes the place of ordinary milk or cream, costs no more, is more palatable and it never curdles. 'Vhen you use St. Charles Cream, either for feeding or in My cooking, you take no chances. Sold by Best Grocers Everywhere. Handsome booklet of valuable information to mothers and nurses sent free upon application. ST. CHARLES CONDENSING CO.

HCHARLES.
